Subject: Permit Amendment to Construct & Operate
Rightmeyer Machine Rentals LCID Landfill
at Roanoke Valley Site on Highway 301
Weldon, Halifax County, North Carolina
LCID Landfill Permit No.: 42-A, Document ID No.: 9105

Dear Mr. Rightmeyer:

Enclosed please find the Solid Waste Permit for the subject LCID Landfill and a Certified Copy of the Permit. The Permit to Construct & Operate is issued in accordance with Section .0201(c) and consistent with Section .0203 and .0563(4) & (6)(c) of the Solid Waste Management Rules 15A NCAC 13B. Based on the plans submitted, the LCID landfill footprint limits are shown on Sheets No. 6 of 6 "*Landfill Cross Sections*" and Sheets No. 5 of 6 "*Landfill Phasing Plan*." The structural fill must be placed to an elevation of 106 feet mean sea level (msl) in the remaining landfill phases, and the LCID landfill is approved for operation to a maximum elevation at the center of the site to 140 feet msl based on the contours and cross-sections depicted on Sheets No. 6 of 6 dated December 1, 2009.

Please note that the issuance of this permit neither exempts you nor removes your responsibility to comply with any applicable ordinance, regulation, or law that may affect your facility. Additionally, please note Condition No. 6, which states that the permit shall not be effective unless the certified copy is filed in the Register of Deeds office in Cumberland County and the copy is returned to the Solid Waste Section, within thirty (30) working days, from date received, with the page and book number, date of recordation, and Register's seal.

If you or your engineer have any question regarding the subject issues, please contact me at (919)-508-8523. Also, you may contact my supervisor Mr. Ed Mussler, P.E., at (919)-508-8495.

Sincerely,

Zi-Qiang Chen, PhD.
